

## BOILERMAKERS LOCAL 83 SUPPLEMENTAL HEALTH & WELFARE FUND

---

October 21, 2022

Re: Boilermakers Local 83 Supplemental Health & Welfare  
Summary of Benefits for 2023

Dear Participant:

The Trustees of the Boilermakers Local 83 Supplemental Health & Welfare Fund are pleased to announce that the rate of reimbursement for the January – June 2023 claims period disbursement has been set at 70% of the self-pay rate for retiree coverage under the Boilermakers National Health and Welfare Fund. This rate will remain in place for the July – December 2023 disbursement unless you are notified otherwise by the Fund to the contrary, prior to that time.

You are eligible for reimbursement for self-payments you make for retiree health coverage under a plan or policy other than that maintained by the Boilermakers National Health and Welfare Fund. However, your reimbursement will be limited by the maximum self-pay rate for the Boilermakers National Health and Welfare Fund. It is important to remember that you will not necessarily be reimbursed 70% of what you paid, but rather the maximum amount payable under the Plan.

The Fund issues disbursements on a semi-annual basis. For the January 2023 through June 2023 disbursement, your claim must be received by the Fund Office no later than August 30, 2023. For the July 2023 through December 2023 disbursement, your claim must be received by March 2, 2024. Claims filed more than 60 days after the end of the benefit period, but within 6 months, will be included in the distribution for the next benefit period. Claims submitted more than six (6) months after the expenses were incurred will be denied and not considered for benefit payment.

Please refer to your Summary Plan Description (SPD) for more information regarding eligibility for this benefit. In addition, you may contact our office at (913) 236-5490 if you have any questions or concerns.

Sincerely,

Board of Trustees
